

## STUDENT CLEVER LOGIN AT HOME

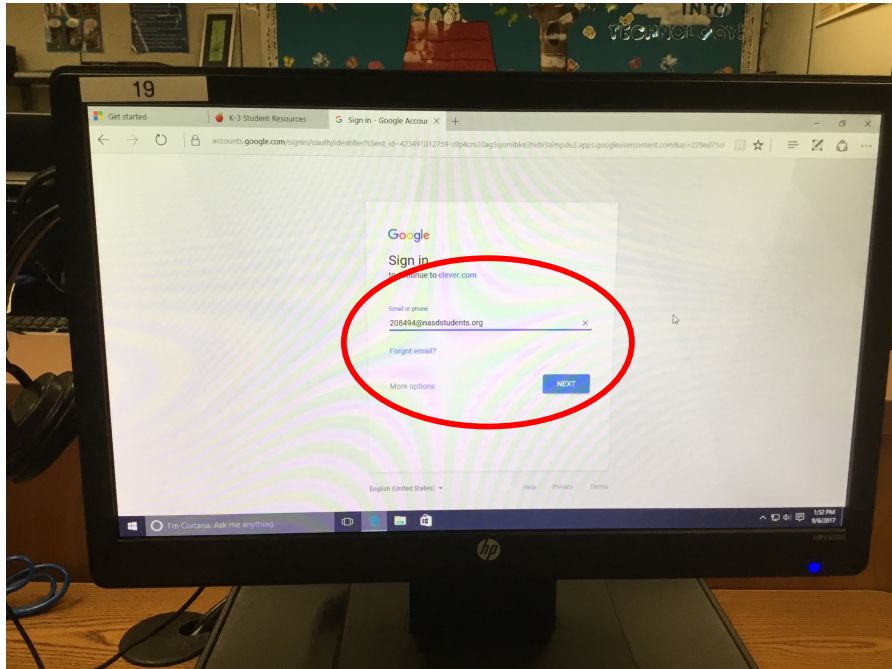

Go on the K-3 Student Resources page which is accessible from each of the K-3 School websites. KBES is [be.nazarethasd.org](http://be.nazarethasd.org); LNES is [lne.nazarethasd.org](http://lne.nazarethasd.org) and SES is [se.nazarethasd.org](http://se.nazarethasd.org). Click on Student Resources tab on any of these three sites and it will take you to the page below. Please note this page is housed under the LNES site, but is the Student Resource page for ALL K-3 schools. Student should then click on the Clever button.

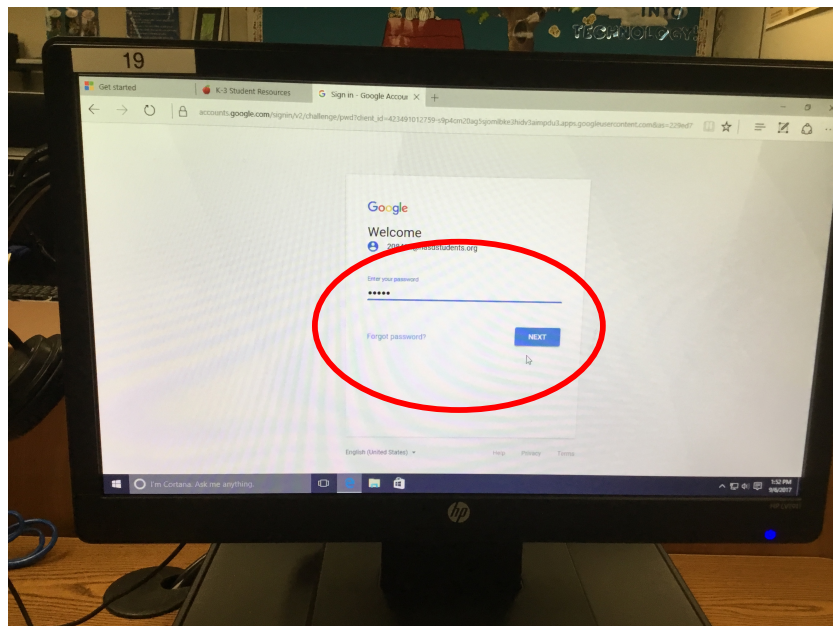

Students should then click on the Log in with Google bar since they will be using their Gmail account to log-in. Every student K-12 has a Google account. However, the email is disabled for elementary students so that they can't send or receive any Email.

The first time they log in it asks for Email. Student's Email is [ID#@nasdstudents.org](mailto:ID#@nasdstudents.org). Click Next button.

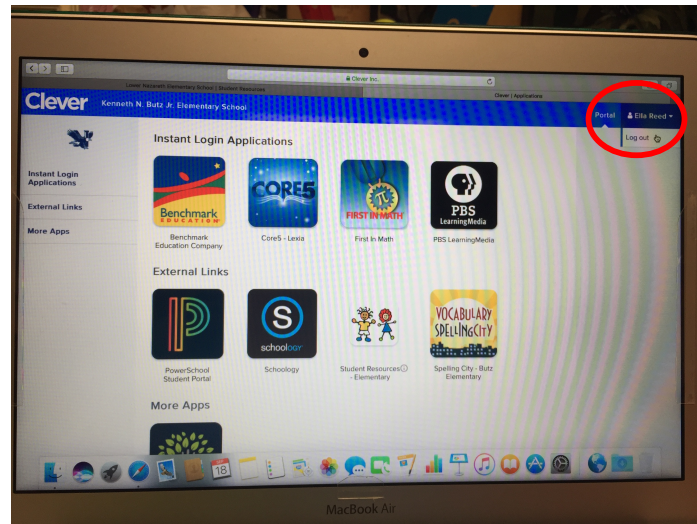

Students then type in their password and click Next button. If the computer asks to save the password, please do if it is your own private home computer. This will help your child the next time they log-in to use Clever.

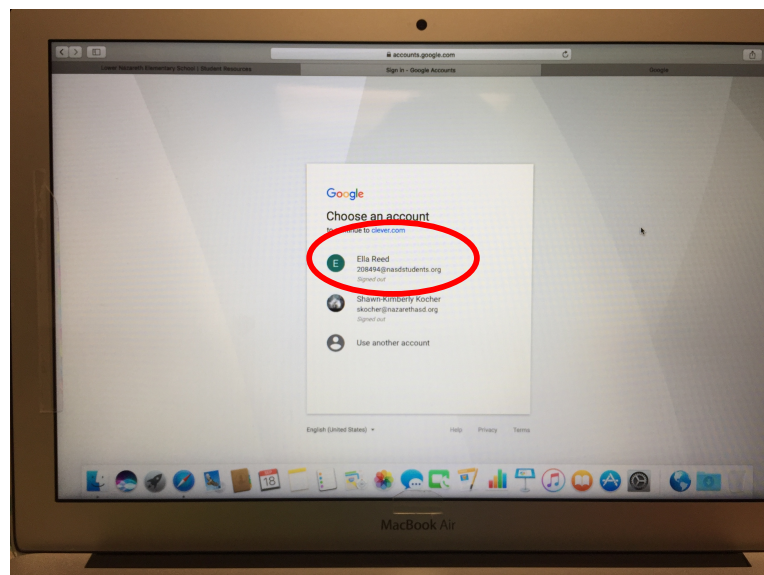

They are now at their Clever desktop in which they can access their Benchmark Universe, Lexia and First in Math. To log out of Clever, students click on their name in top right corner on Clever blue ribbon and then select log out. It is important, especially if you have more than one child or student at home, that they log-out of Clever so that they are not in each other's accounts.

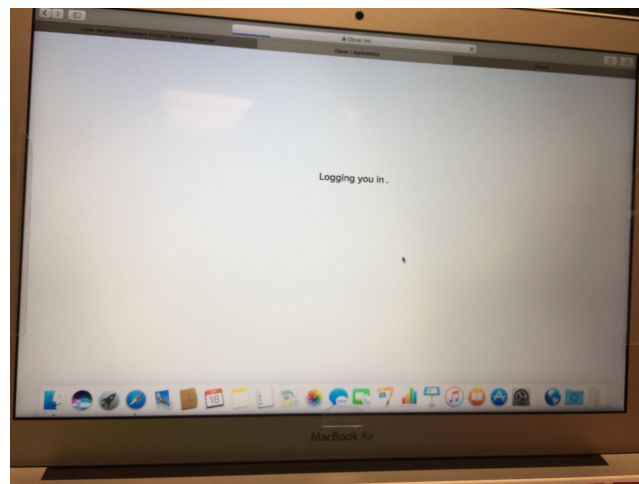

The next time your child goes to use Clever, they should go right through to Clever. However, if you have more than one person using Google Drive or Gmail, they may be faced with this screen the next time they log-on. This screen will show their Google Account with their name and any other Google account that may have been used on that computer. Please note, this doesn't happen at school in the computer labs because students login the computer with their own ID# and Password. On a home computer/laptop, the parent is logging in on their own credentials. Have them click on their name.

They will then type their password on the next screen unless you saved it. They should then click on the Next button.

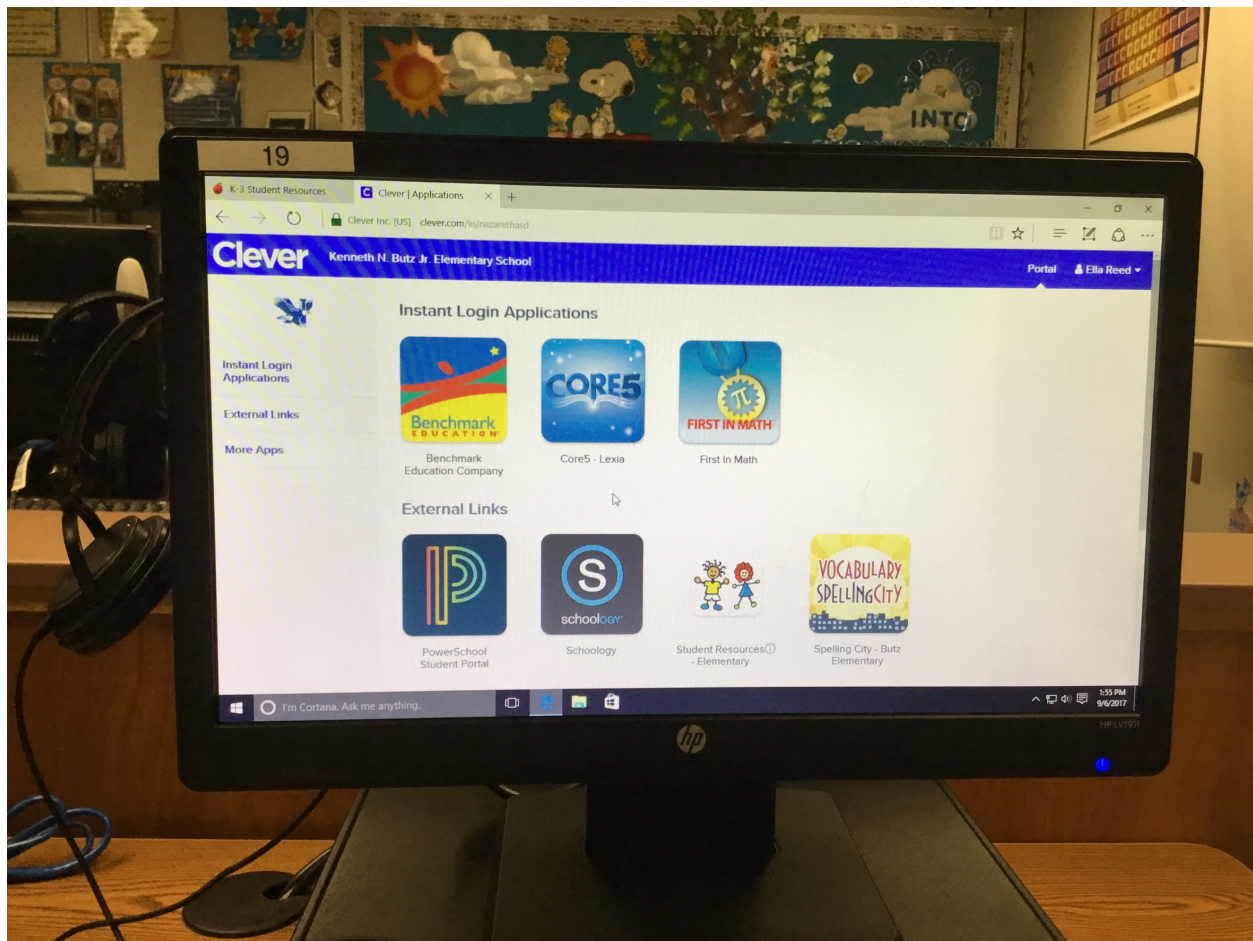

The screen will load.

The Clever dashboard for your child will appear.

The student email (ID#@nasdstudents) only needs to be put in once on any computer/laptop that the student may use at home. Each log-in afterwards, if the information is saved, should only require at most the student selecting their name and possibly typing their password.

There is a Clever iOS App available free from the Apple Store for iPhones and iPads. It will work similar to the directions here. There is also a Lexia Core5 App for the iPad. When you type the student's ID# and password on the initial log-in screen, please make sure to click the Login with Clever button. It may ask the first time in a new school year for the student's teacher email. In most cases it is first initial with last name@nazarethasd.org (ex: skocher@nazarethasd.org). However, there are a few exceptions.

If you have any questions or having problems logging into Clever or any other applications the students may be using, please Email Shawn-Kimberly Kocher at skocher@nazarethasd.org.
